## **Stratford Perth Humane Society Spay & Neuter Clinic Opening Soon**

***Humane Society is committed to healthy animals and population control***

**Kitchener-Waterloo, Stratford-Perth, Ontario, Canada, February 15, 2019** – Animal overpopulation is a serious problem in our communities. The pet overpopulation issue is a direct result of animals left unaltered, and we want to be part of the solution.

We are excited to announce the upcoming opening of the Stratford Perth Humane Society Spay & Neuter Clinic on March 5<sup>th</sup> 2019. The public and rescue groups are welcome, regardless of geography or income level. The services, based on a business and operational model developed by Humane Alliance is low cost, high quality, high volume, and self-sustaining.

“In 2018 we had 144 pets attend our Rabies and Microchip Clinic in Stratford. Of those pets, approximately 50% of their owners reported they did not have a “regular veterinarian”. Every day we receive calls from pet owners looking for assistance, looking for a low-cost clinic. We know there is a need,” says Kathrin Delutis, Executive Director. The clinic will be open one day a week, and as the need increases so will the number of days. It is anticipated that by the fall, the Clinic will be open three-days a week.”

The Stratford Perth Humane Society Spay & Neuter Clinic will offer vaccines, flea treatment, and microchip services with every spay/neuter for cats and dogs (some restrictions). The general public will be able to download an application form from our website or call the Centre for more information and to book a date. Rates begin at \$95 for feline neuters.

This program is made possible through the generous support of our community and we will continue to look for donors and sponsors to ensure we are able to continue to provide this much needed service.
